

Lighting Journal Prompt

The due date has been pushed to Thursday 2/23/17 by 11:59pm!

Journal Description:

5 lighting journals, each at least 100 words in length and including a photograph of the composition being discussed. Each journal should critically analyze an image and relate it to the concepts of lighting discussed in class, examining and evaluating how the 6 qualities of light (as listed in the powerpoint from lecture) are represented in each photo.

The first 3 of the 5 journals should critically analyze an image found in nature — photographed during your everyday life *not* simply taken from the internet. The final 2 journals should focus on *artistically designed* lighting, critically analyzing and relating it to the concepts of lighting and 6 qualities of light as discussed in class.

Example Topics

Journal 1: Natural Lighting - The sunrise at the Pyramid

Journal 2: Natural Lighting - How the light comes through some trees

Journal 3: Natural Lighting - The street lamps on Ocean Blvd. at night

Journal 4: Designed Lighting - The Disneyland Teacups at night

Journal 5: Designed Lighting - A screenshot from Marvel's *Jessica Jones*

Journals should be submitted in PDF form to Beachboard by 11:59pm on 2/23/17. If you are unable to access Beachboard or the internet for any reason, a full-color paper copy of your lighting journals including photographs may be submitted during Lecture or Office Hours the morning of 2/23/17.

Rubric

The Lighting Journals total 5% of the student's final grade, with each individual journal being worth 1% of the final grade. The assignment totals 100 points, 20 points per journal with each being graded based on the following:

Each Journal = 20 points total

Spelling / Grammar = 2 points per journal

100 word minimum & proper formatting = 2 points

Photo Included = 1 point

All 6 qualities of light are discussed = 6 points

Understanding of content = 9 points

Please e-mail Kit or Eby, or stop by office hours in the Light Lab T/R from 9:50-10:50am with any questions regarding the lighting journals!
